

<p>■ Name and Parts</p>  <p>1.Power Button 2.Power LED(Blue) 3.Communication LED(Red) 4.Network Signal LED(Green) 5.External Microphone(for VOX) 6.External Microphone(for sound collection) 7.Built-in Microphone(for sound collection) 8.Detection Microphone 9.DC in</p> <p>(1)</p>	<p>■ Inserting a SIM card and battery</p> <ol style="list-style-type: none"> Open back cover from the unit. Insert an activated SIM card into card slot. Make sure that the cutoff corner is corresponding to the slot and metallic strip of inserted SIM card is facing downward. Align the battery with metallic contact of the battery with corresponding connectors in the unit, and push opposite end of the battery until it snaps in place. Close unit's back cover. <p>* If you are using a prepaid (pay-as-you-go) SIM card, please make sure you have sufficient credit in it. It is strongly recommended to use a non-prepaid SIM card to prevent insufficient credit problem. * Please disable SIM card's "PIN code request" function.</p> <p>■ Charging the battery</p> <ol style="list-style-type: none"> Plug the power adaptor to a wall outlet. Connect the power cord of power adapter to DC 5V in socket. Power LED will light on in red when battery is charging, and turn off when battery is fully charged. You can also charge the battery when the unit is in use. <p>(2)</p>	<p>■ Power on and LED indication</p> <ol style="list-style-type: none"> To power on, press and hold Power Button for about 2 seconds. The blue Power LED turns on first. Wait for about 25 seconds then the green Network LED turn on, indicating GE-40S is under GSM network coverage and is now ready to work. The red communication LED turns on when a call is connected. To power off, press the Power Button again. All indication LED turn off. <p>■ Call in GE-40S to listen</p> <ol style="list-style-type: none"> Dial the SIM card number inserted in GE-40S. You can call in from any phone. After connected, you will hear a short beep then press *# to enable GE-40S' microphone. Now, you can hear surrounding sound of the unit. <p>■ Set up call back number</p> <p>You can set up a number to GE-40S, whenever a sound or a vibration is detected the unit calls back to this number automatically. To set up the call back number, do the following:</p> <ol style="list-style-type: none"> Dial the SIM card number inserted in the unit. You can call in from any phone. After call connected, you will hear a short beep. Press *9 to set up call back number. Now enter "country code" and "phone number" then press "#". You should hear a short beep on successfully set up the call back number. <p>Note: Please make sure voicemail on the call back number is disabled. Contact your network service provider to disabled voicemail function.</p> <p>(3)</p>
