4. Camera Setup Illustration

- Connection with a portable DVR:
1. Select NTSC/PAL on the camera.
 2. Plug in the camera into CAM IN socket on the DVR.
 3. Power on DVR and press REC button to start recording.

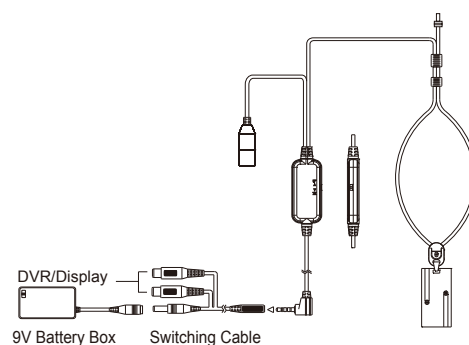

3

Connection with AV Out cable:

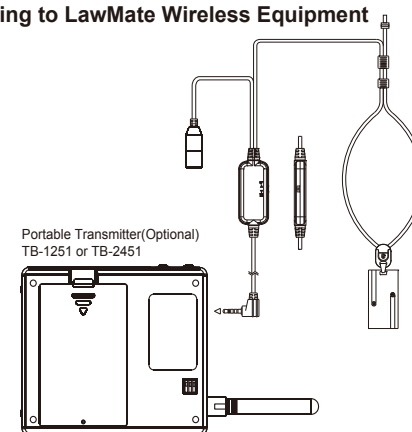

If you do not use LawMate portable DVR and would like to connect CM-NL10 to your own DVR or display device, you can use AV Out cable to make the connection.

1. Install the device as illustration shown below.
2. Connect yellow and red cables to your DVR or TV/Monitor.
3. Connect 9V power-cord to your power supply.
*If you do not have the power supply, you can use the 9V battery box for power supply. Slide the back cover of battery box to open the battery tray. Insert a PP3 (9V) battery into battery tray. Switch to ON position.
4. Captured images are automatically shown on the connected DVR or TV/Monitor.

4

5. Connecting to LawMate Wireless Equipment

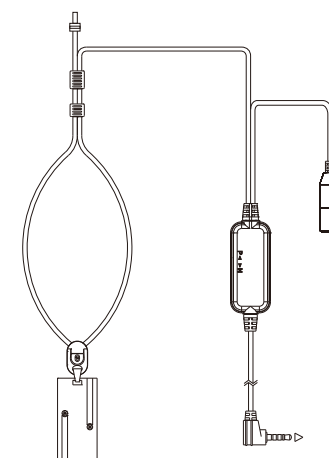

1. Camera can also be connected with RF wireless equipment.
2. Connect AV jack to portable transmitter.
3. Connect DVR or any recording device with the portable receiver.
4. Set transmitter and receiver at the same frequency or channel.
5. Power on the receiver.
6. Captured images will be shown on receiver side.
7. Note that receiver should be connecting to a Monitor/TV to view the transmitted images.

※ Do not remove serial number sticker!
Warranty is invalid if the sticker is tampered.
